

## SANITATION IN MUNICIPALITY OF RENNESØY

In Rennesøy municipality all household waste shall be sorting at source!

### GREEN WASTE BIN:

You can throw waste paper (newspapers , magazines, advertising, stationery, soft / thin cardboard).

Emptied every 4 weeks at your home (see date in waste collection calendar).

### BROWN WASTE BIN:

You can throw organic waste and food waste (leftovers, coffee filters , flowers/potted plants, green garden waste), packed in biobags.

Emptied every 2 weeks at your home (see date in waste collection calendar).

### BLACK WASTE BIN:

You can throw waste that can't be recycled (soiled paper and plastic, ash, vacuum cleaner bags, ceramic/porcelain , wrapping paper, diapers and sanitary pads etc.) Emptied every 2 weeks at your home (see date in waste collection calendar).

### PLASTIC SAC:

In the plastic sac you throw plastic packaging (foil, plastic bottles, plastic cups, flat board, pots, jugs etc.). The plastic must be clean and empty.

Collected every 4 weeks (see date in waste collection calendar).

### OTHER WASTE:

Glass and metal packaging and textile must be delivered to recycling station (see location on the back)

### BAGS AND WASTE COLLECTION CALENDAR:

Plastic bags for plastic packaging and biobags will be handed out with the waste collection calendar and a cardboard box for used batteries every December.
